Election/Restrictions

Claims 1-24 are pending in this application.

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-10 and 14-20, drawn to semiconductor device (a thin-film transistor), classified in class 257, and subclass 59.

Group II. Claims 11-13 and 21-22, drawn to process of making a semiconductor device, classified in class 438, and subclass 149.

Group III. Claims 23-24, drawn to an active-matrix-addressed liquid crystal display device (fig. 13), classified in class 257, and subclass 350.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are related as two different products made and process of making.

3. Because these inventions are distinct and have acquired a separate status in the art as shown by their different classification, the fields of search are not co-extensive.

Therefore, separate examination would be required and restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
